Dear Parents and Boys

CloudBase

We are delighted to announce a new information-sharing platform between staff and boys, designed specifically for the RGSHW. We are launching it this week to the boys, and ask that they all take time to explore this new initiative.

I would welcome their feedback <u>hmf@rgshw.com</u>.

This is designed to be an intuitive, information sharing platform between your sons and the individual departments in the School. Your sons will have access, through 'Student Sites', to those Departments in which they have lessons, and the year groups that the Subject Leaders have asked for. For example, a Year 13 might have access to Year 12 and Year 13.

Your sons will also see the Outlook and the Announcement Tiles, designed again to help them access immediate information that they might need to be aware of, and their OneDrive. There will be more releases/functionality to be shared once the initial release has embedded.
