Business Studies

AQA Business for A Level (Marcoussé)

Publisher: Hodder Education; UK ed. edition (25 Sept. 2015)

Available on Amazon

Note: this one book covers both years of the course

Chemistry

Edexcel AS/A level Chemistry 1,
Cliff Curtis, Jason Murgatroyd and David Scott, published by Pearson.
ISBN 978-1-4479-9116-8.

This book covers Year 1 material and a second book will be required to cover the second year of the course.

The department strongly recommends the purchasing of at least one revision guide that is specific to the Edexcel A level course. Different students have different preferences but CGP is usually the popular choice. Many students also find workbooks to be useful. It is best that any revision guides or aides are tailored to the Edexcel specification.

Computing

OCR AS and A Level Computer Science

380pp

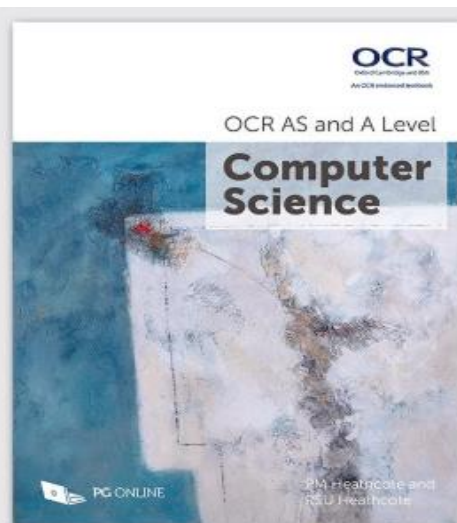

Available in printed paperback format, or as a digital subscription edition

A complete course text which includes AS and A Level for the H046/H446 specifications.

The book is divided into 12 sections, each containing roughly six chapters. Each chapter covers material that can comfortably be taught in one or two lessons. It will also be a useful reference and revision guide for students throughout the A Level course. Content applicable to the A Level only is indicated throughout the textbook.

Each chapter contains exercises, some new and some from past examination papers, which can be set as homework. Answers to all these are available to teachers only, in a Teachers Supplement which can be ordered and downloaded via the website.

To accompany this textbook, PG Online also publishes a series of 12 downloadable teaching units. Unit 10 Computational thinking is free. Each topic in a unit consists of a PowerPoint presentation, teacher's notes, worksheets, homework sheets and a final assessment test with exam-style questions. Each topic within a unit is expected to be taught over several lessons in a week. Units are sold as a lifetime site licence and may be loaded onto the school's private network or VLE.

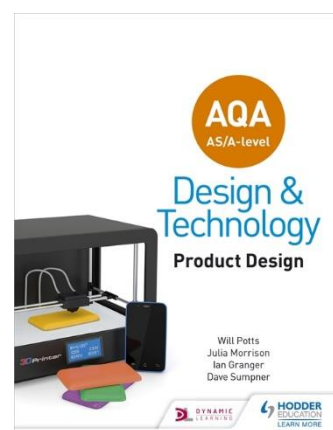

DT

AQA AS/A-Level Design and Technology: Product Design ISBN 9781510414082

The textbook has been written by senior AQA examiners and links specifically to the specification that will be covered throughout the two years.

You will need to purchase a copy of this textbook yourself ready for use in September. The book's current retail price is £32.99.

Economics

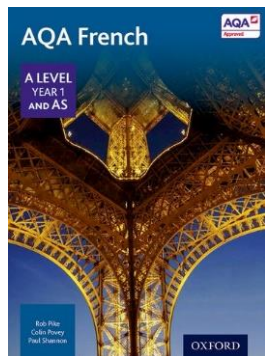

This is for both years of the linear course.

We will have digital textbooks available on the VLE for viewing or download, but we also recommend a printed text book. The essential text for good coverage of all of the A level key topics is: Economics AQA 6th Edition by Anderton. This is also available on Amazon or <http://andertonpress.co.uk/student-book/>. These will be supplemented by further resources produced by the department.
