Dear Parents/ Guardians,

Y7 and 8 Maths Revision & Practice Resources

Your son will begin preparation for his Summer Exams after Easter, once we have finished the syllabus. As he will not be able to use an ipad or a tablet for revision in school it is especially important that he has a resource that he can use in school during revision sessions. In preparation for this we would like to draw your attention to a Mathematics revision resource that you may wish to purchase for your son.

Key Stage 3 Mathematics Higher Level Complete Revision & Practice

We have managed to secure a big discount with the publisher for an excellent **revision and practice guide** for KS3 Mathematics. This is a very useful booklet of all topics covered at Key Stage 3 and will act as a handy revision tool for your son throughout Years 7 - 8. Students are able to bring these books into Maths lessons, and use them as a learning tool for both reference and revision. The new edition also now comes with a digital edition, video solutions and digital quizzes.

We feel this would help your son immensely throughout the year and will be ideal preparation for his End of Year assessment.

Orders for this book, offered at the reduced price of £7, can be placed on ParentPay (see "**Year 7 & 8 Maths & Revision Resources**"). The deadline for payment is **Monday 5th February** after which no further orders can be made. If your son is in receipt of Pupil Premium due to low family income you do not need to order booklets as these will be ordered for him.

Yours faithfully

Mr F Butler

Mathematics Key Stage 3 Assistant Subject Leader
