Dear Parent

MEDSOC

The RGS Medical Society (Medsoc), a thriving and well-attended group, aims to support Year 11, 12 and 13 students with their applications to study Medicine at university. In order to give students a real insight into the medical profession we very much value current medical professionals giving up their time and coming into school over a lunchtime to give a brief talk about what their careers involve. In the past we have had presentations from a range of professions including GPs, anaesthetists and medical research scientists – all of which have been superb - and the boys have gained significant value from them.

We are currently in the process of preparing a schedule of talks for current students. If you are working in any area of the medical profession and feel you would be able to help out with one of these talks at any point throughout the year I would be delighted to hear from you. Please contact me on pjw@rgshw.com.

Kind regards

Peter Wood
Subject Leader for Biology/Medical Society Coordinator
