

04th October 2019

Dear Parents

FPV DRONE RACING CLUB – Y8 to Y10

Price: £20

Due to unforeseen circumstances, application for the FPV Drone Racing Club will be relaunched to all Years 8-10.

This co-curricular club will run after school every Wednesday 4.00 – 5.00pm in Room B3. It will include learning how to pilot FPV drones and programming with the possibility of moving into building a larger racing drone. This is a great opportunity for students who have a keen interest in engineering, robotics and models.

In this launch we will allow all boys/parents to register their interest by making the £20 payment on ParentPay. The application window will be open for 24 hours, and we will then draw, at random, 20 names from the list of applicants. Boys who are not successful will have their £20 refunded and their names recorded for the possibility of another FPV Drone Racing Club running alongside this one in the new year.

We would not want any pupil to be unable to take advantage of this opportunity due to financial reasons. If you would like to discuss this, please contact me immediately in the strictest confidence.

The cost for this Club will allow for the purchase of drones, batteries and other equipment necessary to get the club up and running.

Payment will open on Tuesday 8th October at 4pm and close on Wednesday 9th October at 4pm.

Due to the time needed for the delivery of the equipment, there will be a delay in the start of the Club of up to 4 weeks (depending on delivery details).

I apologise for any previous inconvenience caused. However, if you have any queries, please do not hesitate to contact me.

Yours sincerely
Lee Rowe-Elliott
