

Inspiration Week for KS3

Date: week commencing 4 May

Aims:

- To allow students to be inspired by their subjects.
- To give a reduction in screen time for the students.
- To provide a lighter marking week for staff.
- To allow subject leaders the time to prepare A-level material for Y11.
- To allow students to develop a new skill.

Plan of the week:

- Teachers will provide a stimulus to **inspire** the students in their subject. It could be a podcast, youtube clip, an inspiring task, viewing part of a play, movie or documentary. The work provided should not exceed an hour of time (including completing any tasks), although I know some of your sons will be so inspired that they will want to get their “teeth stuck into it!”
- Each day your sons will follow the timetable outlined below. They will log on to their usual Team for each subject on that day. The teacher will have posted the task for them to complete in the Assignment section by 9.15am that morning.
- **On Monday Year 7s will choose the language (or Class Civ) option that they have been allocated to study in Year 8. They will have a new Team available to them for their activity in this subject. It will be titled “Y7 Inspiration Week German” for example.**

New Skill

- During the time gained in the week we are encouraging your son to develop a new skill. On Thursday the boys will upload a photo or write a brief summary to their FT of the skill they have developed in the week.
- The new skill could be anything from reciting a poem, spring cleaning a house, learning a new guitar song, planning the family menu and cooking it!

Timetable for Y7-9:

Monday	Tuesday	Wednesday	Thursday	Friday
Chemistry	French	History	Form Period	BANK HOLIDAY!
English	Geography	Music	Physics	
Spanish/German/ Latin/Class Civ	Computing	Biology	PE	
Art	DT	Maths	RS	

I hope the week proves fun and inspiring for all.

Kind regards

Alex Wallace
