

The Academic Forum provides an opportunity to explore the academic subject you are thinking of studying at university outside of the confines of the exam curriculum.

For those likely to attend interviews over the coming months, it offers an exploration of your academic discipline at a university level.

It is an exciting chance to engage with some of the most current and challenging debates surrounding a subject you want to study in the future.

Pupils applying for Medicine and Veterinary Science also benefit from focused interview training provided by a specialist external company.

The conference is organised in partnership with Wycombe Abbey and attended by all members of their Upper Sixth.

Wycombe Abbey  
Thursday 27 September  
1600-2000

Contact Miss Sowah (LAS) for details  
Cost is £10 including dinner
