Dear Parents,

### **Maths Department 'Remote Learning'**

Following on from the Headmaster's letter regarding lessons and homework, the RGS Maths Department has set up 'Remote learning' for all of Years 7-13. All details for your son's respective year group can be found on 'Cloudbox' under the folder called 'Remote Learning'.

There will be details of lessons for students for each week. They will be asked to upload work fortnightly to their teacher via Teams and will be in regular dialogue with him/her. They will use their online text book from either Collins Connect or Activelearn, as well as using Maths web-sites such as [www.mymaths.co.uk](http://www.mymaths.co.uk), [www.integralmaths.org.uk](http://www.integralmaths.org.uk) and [www.drfrostmaths.com](http://www.drfrostmaths.com).

If your son has any questions or queries, please do get in touch with his Maths teacher.

Kind regards,

Trevor Woolliams

Subject Leader for Mathematics
