Message via Matron from the Buckinghamshire School Nursing Immunisation Team

Dear Year 8 and Year 9 Parents

Please see the message below that we have received from the Buckinghamshire School Nursing Immunisation Team

*If your child has not yet received their vaccination that had been planned for this school year, please don't worry. The Bucks School Immunisation Team are working with each school on a plan to ensure that as many vaccinations as possible that are due are carried out after Easter. We will keep you informed of our plans and any changes that may occur.*

*We are also continuing to run our community clinics during this time.*

*If you have any queries regarding your child's immunisations, please contact the Bucks School Immunisation Team on 01296 567860.*

*Many thanks,*

*Buckinghamshire School Nursing Immunisation Team*

Kind regards

Matron
