## Where would I be working?

Our regional office locations are all centrally located in either the town or city centre and are usually within walking distance of the main public transport links. The teams that are based in these locations tend to be smaller, closer-knit teams offering apprentices the same level of exposure to senior leadership and the same career development and learning opportunities that are offered in our London office. We operate an agile working policy, which means all colleagues are equipped to be able to work from any location, this provides apprentices with the opportunity to work with and learn from different people every day.

### St Albans:

The Verulam Point offices in the cathedral city of St Albans are situated next to St Albans City station, with excellent train links to London, St Pancras and Bedford, meaning there is opportunity to travel into London for meetings etc. Opened in 2012, the modern offices are home to circa 200 colleagues, who work within Aon's Retirement Solutions division. The offices are a 15 minute walk from the city centre. St Albans also has good road links, and is close to both the M25 and M1. The offices have well equipped kitchens and breakout areas.

The offices are located next to a park, and it is a short 5 minute walk to the bustling town centre. The M25 is approximately a 10 minute drive. Epsom station is a 10 minute walk, and has excellent links to London stations - Waterloo, Charing Cross meaning there is opportunity to travel into London for meetings etc. The offices have well equipped kitchens and breakout areas.

#### Farnborough:

Our recently refurbished Farnborough office is based in the town centre and is one of the largest Aon offices, with circa 400 employees. The office is directly opposite bus links and a 5-minute walk from the train station which has direct routes into London.
