

An Introduction from the new RGS Heads of House

Hello from the RGS Heads of House 2020/21! As our first act, we would like to introduce ourselves, and our plans for the RGS house system in the next academic year. Our aim as Heads of House is to increase unity within the houses, and for everyone in the School to strongly identify with their own house. We would like to do this by both encouraging members of houses to spend more time together, and by creating more competition and rivalry between the houses. Our first step towards doing this is the introduction of the BIG HOUSE EVENTS™. Each term there will be one major house competition. This will be the House Music competition in the spring term and Sports Day in the summer term. For the autumn term this year, we are proud to present a new competition: the BIG FAT RGS QUIZ (more details about this specific event will be revealed soon...). Each competition will earn a large number of house points, meaning that whether you are interested in sport, music or academics, you will be able to support your house in a positive and impactful way. We are enthusiastic about these initial additions to the house system, and hope to make many more developments over the course of the year. Finally, we look forward to seeing everyone in September.
