Dear Year 12 Students (and Parents for information)

## UCAS Student Hub

I would like to bring to your attention a new opportunity from UCAS which I strongly encourage everyone to sign up for. It doesn't matter whether you're contemplating university, an apprenticeship or a job when you leave school, UCAS can help with all of those in one way or another. The sooner you sign up, the more information you will have at your disposal, allowing you to make the best possible choice next year.

This is what UCAS says about their new Student Hub:

***Clothes, music, interests, they're all so similar, yet totally unique.***

*Your students may wear similar clothes, share the same interests, and be influenced by one another, but we know they're all unique.*

*When it comes to making decisions about their future, we recognise that it needs to be the right decision for them. With so many options, sources of information, and decisions to make, how do they decide?*

*We've worked with hundreds of students to create the perfect tool to help.*

---

### ***Organise it. Design it. Make it yours.***

*The UCAS Hub provides your students with all the tools and information they need – in one place. So when it comes to exploring subjects, considering apprenticeships, shortlisting their final five, and writing a killer personal statement or CV, we've got it covered.*

*Still need more? Here are five reasons why your students should sign up:*

- 1. Options** – and lots of them. From over 35,000 undergraduate courses to choose from, and the latest apprenticeship vacancies, there's something for everyone.*
- 2. Direction** – with timely reminders and a handy to do list, it keeps students on track and engaged.*
- 3. One-to-one support** – based on what they've told us, we'll fast-track them to the information they need.*
- 4. Solutions** – we'll help them narrow it down – explore, filter, and favourite the things which matter to them most.*
- 5. A safe space** – where they can save their research, edit, and return to at any time.*

*And the best bit – each student will have their own dashboard which they can customise and tailor to their needs. Organise tools, remove the ones they don't need, and tick off their to do list. It's their space, and their future.*

*See it for yourself*
