Senior Physics Technician

Salary/remuneration package:

- Range 3 (£23,152 - £25,043) full time equivalent
- Actual Salary £19,901 - £21,190

Working Hours:

- 37 hours per week
- Term time only

The Role:

The Royal Grammar School is looking for a dynamic, enthusiastic and experienced technician to join the Physics Department. Ideally this candidate should have a science-based degree and preferably experience as a science technician.

The Department:

The Royal Grammar School is looking for a highly-skilled and cheerfully co-operative technician to join our team in the physics department. High standards pervade all aspects of the school's life, and the students' interest in and commitment to physics is particularly evident from their enthusiasm and motivation. The students are easily inspired to take their learning further and typically enjoy challenging activities with relish.

The physics department occupies the first floor of the purpose-built science block where four laboratories (three recently refurbished) are used for the delivery of the subject to Years 9 to 13. A highly skilled and cheerfully co-operative technician maintains and prepares equipment for demonstration and class experiment use. On the ground floor there is a junior science laboratory dedicated to physics, along with a computer room. Each laboratory is well resourced with a whiteboard and data projector. Students in years 7 -11 use iPads and A level students use laptops to enhance and personalize learning.

The department hosts weekly engineering and physics symposiums where students discuss and make presentations on a wide range of topics. There is also an enthusiastic Astronomy club which offers the opportunity for some students to take Astronomy GCSE. We also organise several trips a year, including a visit to CERN in Switzerland to discover the Hadron Collider.

The physics department has a reputation for academic excellence. The three sciences are taught as separate subjects from year 7, and all the boys in Year 11 are expected to sit separate Edexcel Science GCSEs. Scores in the national physics challenges set by the British Physics Olympiad are among the best within the maintained sector – in a given year we have had up to 60 students in Years 11-13 winning medals in these competitions.

Typically, 80 students sign on for A level physics in Year 12. A large proportion of the department's Sixth Form go on to study physics and engineering undergraduate courses – it is rare for there to be fewer than five accepted into these subjects at Oxford and Cambridge in any given year.
