

4th January 2022

Dear Parents and Year 11, 12, 13 Students

“All About Degree Apprenticeships from Degree Apprentices”
Featuring Omar Ahmed at CISCO (Technology) &
Drew Padfield (ex RGS) at The Dyson Institute (Engineering)
Monday 31st January 2022 6:00pm (Virtual via TEAMS)

We would like to invite you and your sons to a Degree Apprenticeship Information Evening, where our main presenters will be two current degree apprentices: Omar Ahmed currently at CISCO (An International Technology company involved in creating digital society, cyber security and digital skills training - <https://www.cisco.com/>) and Drew Padfield currently at The Dyson Institute (An exclusive university designed specifically for engineering students - <https://www.dysoninstitute.com/about-us/>)

This will be a great opportunity for current students to ask questions and get an insight into the apprenticeship journey from school to apprenticeship straight from an apprentice.

If you are interested in attending, please could you complete the form on this link to include your son's full name and email address: [Apprenticeship Form](#) We shall be streaming the talk through Microsoft TEAMS.

We look forward to seeing you there.

Kind regards

Mrs Sadia Azad - Careers and Higher Education Lead (sva@rgshw.com)

Mrs Sonia Booth - Careers Administrator (seb@rgshw.com)
