Y9 Maths Revision Resources

Dear Parents/ Guardians,

We would like to draw your attention to a Mathematics revision resource that you may wish to purchase for your son in the run up to school exams.

Pocket Posers GCSE Maths Higher Revision Guide

We have managed to secure a discount with the publisher for an excellent **pocket-sized revision guide** for Mathematics. This is a useful booklet of all topics covered at Key Stage 3 and GCSE and will act as a handy revision tool for your son. We have offered this to students in previous years, and had an overwhelmingly positive response both in terms of numbers purchased and feedback on the guide.

Orders for the booklet offered at the reduced price of £3.50 can be placed on ParentPay (see "**GCSE Maths pocket-sized revision guide**"). The deadline for payment is **Friday 30th April** after which no further orders can be made. We would recommend this especially for Year 9 Pupils who are starting the GCSE Specification after Easter.

Yours faithfully

Mr S Armitage
Mathematics Key Stage 3 Assistant Subject Leader
