

21st September 2021

Dear Parents and Year 11,12,13 students

Degree Apprenticeship Information Evening
Monday 18th October 2021 6:00pm (Virtual via TEAMS)

We would like to invite you and your sons to a Degree Apprenticeship Information Evening, where our main presenter will be our external Careers Advisor, Vicki Harris. Degree Apprenticeships are becoming increasingly popular, with the opportunity for students to achieve a fully funded qualification whilst gaining real life salaried work experience. We shall also be joined by current apprentice, Shuja Mehdi who is a second-year apprentice with GSK studying a degree in Bioscience with Clinical research at the University of Kent.

Some of last year's cohort of students included successful applicants to Degree Apprenticeship Programmes with: The Dyson Institute for Engineering, BAE Systems for the Ministry of Defence, Ernst and Young and PWC's Flying Start. This will be an opportunity for you to find out more about the apprenticeship application process and how to search for the relevant opportunities available. There will also be an opportunity for you to ask any questions you might have.

If you are interested in attending, please could you complete the form on this link [ApprenticeshipEveningForm](#) to include your son's full name and email address. We shall be streaming the talk through Microsoft TEAMS.

We look forward to seeing you there.

Kind regards

Mrs Sadia Azad - Careers and Higher Education Lead
Mrs Sonia Booth - Careers Administrator
