

29/11/22

Dear Year 12 Students and Parents/Guardians,

**There is an incredible opportunity to learn how to dive, be involved in sustainability and the conservation of sharks in the Mediterranean Sea!**

We're inviting you to join an online talk about our exciting Malta diving and sustainability trip, running in October 2023 for Year 13 students (current Year 12) who are studying Biology and/or Geography and/or have a passion for conservation, marine biology and sustainability.

This is both a life changing opportunity for students to explore the Mediterranean Sea, and the chance to complete six additional guided shore dives, including two conservation-oriented dives. You'll have the chance to learn about efforts to raise awareness of sharks, skates, rays, and other marine wildlife found in the waters surrounding Malta, take part in different activities which will contribute to research and play a role in conservation whilst fine tuning your new diving skills! The skills that you will be learning will also allow you to further develop your understanding of your learning from school and apply to these fantastic scenarios. No previous diving experience is required!

We're partnering with True adventure to offer this 9-day trip. Applications will open shortly, but please visit the trip webpage for sample itinerary, travel dates, and more information:

Tom, from True Adventure will host the 30-minute Teams presentation on Monday 5<sup>th</sup> December at 6pm. Please join us, ask any questions, or just listen in – there's no commitment at this stage, just a chance to find out more.

To attend, please use the Teams link here to register:

We look forward to sharing our enthusiasm for this exciting opportunity with you and your sons.

With best wishes,

Mr L Rowe-Elliott

Biology Subject Leader
