

21/4/2021

Dear Parent,

JUNIOR MATHEMATICAL CHALLENGE

Just a reminder that the online Junior Mathematical Challenge is scheduled for **Tuesday 27th April** at 5:30pm. As you know we are entering 409 boys from Years 7 and 8 and your son has been given this exciting opportunity to enter the competition. To enable your son to have the time to sit the challenge we shall be cancelling the Maths Homework for that week.

The Junior Mathematical Challenge is a 60-minute, **online**, multiple-choice competition aimed at students across Years 7-8.

About the online Challenge

The Challenge will be live on Tuesday **27th April at 5:30pm**. The Challenge can be taken on all devices - laptop, iPad or PC. Students will be allowed 60 (continuous) minutes to complete the challenge. After the hour has expired, they will be unable to continue, amend answers, or log back in.

We have attached the following

- 'Student Instructions' for your information.
- 'Student Letter'.
- 'Diagrams Sheet' which you may wish to print for your son to use in the Challenge (optional).

Your son will also receive this information from his Maths teacher with details of how to log in to his online profile.

We do hope your son enjoys the experience and wish him best of luck.

Yours sincerely,

Mrs J. Holmes
Mathematics Department UKMT Co-ordinator
