

Are you considering studying for a degree in Civil Engineering?

Would you like to study for your degree while working for an established, successful engineering consultancy who will pay the tuition fees for you?

As a Higher Level Degree Apprentice you will gain a BEng (Hons) degree in civil engineering over a six-year period, attending university one day a week. At the end of the course you will gain a valuable degree, have zero student debt, as well as having gained work experience and been paid. You can then go on to join our graduate training programme, leading to a world-class professional qualification with either the Institution of Civil or Structural Engineers.

Candidates should have 3 good A Levels, including at least a B in Maths and will be looking for an exciting workplace that provides a fantastic career opportunity.

About Us - We are a dynamic and progressive engineering consultancy whose purpose is to develop and harness our engineering expertise, to create a sustainable legacy for those who construct and inhabit the built environment.

We have a broad client base and work with leading architects, many of the UK national housebuilders and a range of large and small developers.

If this sounds like you and the career opportunity you are seeking, then we would love to hear from you. Please send your CV and a covering letter to lisa.watts@structa.co.uk.
